

GENERAL PROGRAM DESCRIPTION

The St. Francis Residences offer permanent housing for people with a history of chronic mental illness.

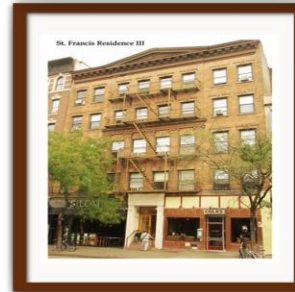

Services to the tenants include: money management, medication management, advocacy, medical and psychiatric treatment, securing benefits and providing, when available, suitable clothing for the season. Through staff interaction with the tenants, the program seeks to develop and enhance the dignity, skills and appropriate behavior of the tenants, facilitating their integration and acceptance into the community.

REFERRAL AND ADMISSION GUIDELINES FOR THE ST. FRANCIS RESIDENCES

ADMISSION GUIDELINE

CRITERIA FOR ACCEPTANCE

1. A psychosocial summary

Please include family, social, educational, vocational, drug and alcohol use/treatment, criminal, psychiatric and housing histories. Provide an ADL assessment. List all current benefits (SSI,SSD, Medicaid, etc.) and provide a copy of Medicaid card and recent award letter or check.

2. A Psychiatric Evaluation, including:

- Diagnosis/decompensation symptoms/baseline
- Hospitalizations (including hospital names/dates/precipitants)
- Out-patient treatment history
- Medication history (including positive and negative results)
- History of destructive, assaultive or suicidal behavior
- History of substance abuse and treatment
- Current mental status exam
- Current medication regimen
- If studies such as EEG, CT, MRI or Neurological exam have been recently ordered and performed, please include these in the referral

3. A recent physical exam, including: medical history/lab values/copies of any medical consults/PPD status

The St. Francis Residences have been providing supportive housing for seriously mentally ill tenants since 1980. Each of our three hotels is staffed by a psychiatric nurse, two activities therapists/case managers, benefits specialist, part-time psychiatrists and a visiting medical doctor. We provide supportive services to approximately 100 tenants per hotel Monday through Friday, 9:30 am to 4:30 pm. Applicants requiring 24-hour supervision, more structure or intensive substance abuse services are better served by programs that address their special needs.

We hope this information is helpful in assessing your client's housing needs
